1. Applicant's election of Group I, claims 1-8 in the reply filed on 1/4/2005 is acknowledged. Applicant's amendment does not overcome the restriction requirement. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. This application is in condition for allowance except for the presence of claims 9 to 27 non-elected without traverse. Accordingly, claims 9-27 been cancelled.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please cancel claims 9-27.

4. The following is an examiner's statement of reasons for allowance: The cited prior art fails to teach the claimed invention alone or in a combination.

The invention is a system for producing variable information page description language output stream from a dynamic document and recipient list comprising data iterator, document instantiator, output generator and merge component.

The cited prior art, Specifically Gauthier teaches variable data fields with page description language but fails to teach producing VIPDL output stream from dynamic document and recipient list as claimed. Therefore the invention as claimed is allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
